

Alexandria Gazette

VOL. XXVII.—NO. 62.

ALEXANDRIA, VA., THURSDAY EVENING, MARCH 12, 1896.

PRICE 2 CTS.

MEDICINAL.

MOTHERS
recovering from the illness attending child-birth, or who suffer from the effects of derangements and displacements of the woman's organs, will find relief and a permanent cure in Dr. Pierce's Favorite Prescription. Taken during pregnancy, the "Prescription" makes childbirth easy.

THE MONROE DOCTRINE.
The fact that the Monroe doctrine is the outcome of a suggestion made by an English prime minister is brought out with admirable clearness and brevity in a communication lately made to a San Francisco interviewer by Colonel John S. Mosby, a distinguished local lawyer, who also attained great celebrity as a leader of cavalry in the American war. Colonel Mosby has been described as the Prince Rupert of the Southern army, and is still highly respected as a man of great nobility of character and manliness of disposition. He will be remembered by many English visitors to the East as American consul at Hong-kong in the early eighties.

The communication referred to is as follows:
"George Canning, a former prime minister of England, is the real author of the Monroe doctrine. In 1823 England was fighting the holy alliance, which had issued a circular announcing a crusade against free institutions all over the world. At the instigation of Mr. Canning, President Monroe embodied a declaration in his message to Congress that any attempt on the part of the holy alliance to carry out its designs on this continent would be considered an unfriendly act towards the government of the United States."

"But the holy alliance has long ago been dissolved, and there is no such danger now menacing our institutions. The holy alliance had proclaimed its purpose to establish absolute governments all over the world, and to suppress any uprising in favor of popular institutions, and it was against the holy alliance that President Monroe fulminated his now famous proclamation."

"It is perfectly absurd to announce that if England should take possession of a little strip of territory on the Orinoco it would be a menace to our institutions, when England already has Canada on our northern frontier and Jamaica and Trinidad in the Gulf of Mexico. It would be no more a menace to us than if she were to take possession of gold fields in Africa. What constitutes a menace is a question of fact and not of law."

"Mr. Calhoun was in President Monroe's Cabinet at the time when this declaration was made, and if any one would read his speech on the Yucatan question he will see how utterly President Cleveland has perverted and misinterpreted Mr. Monroe's message. The United States had about 7,000,000 people at that time and now has about 70,000,000 and no man outside of a lunatic asylum can believe that the occupation of this little strip of territory on the Orinoco by England can endanger the United States."—London Times.

DEATH OF MR. GOLDSBOROUGH.
Richard Tighman Gold-borough died at his home, in Cambridge, Md., yesterday, after a lingering illness of more than a year, in the seventieth year of his age. He was the son of the late Governor Charles Gold-borough, of Shal Creek. He was a half-brother of Mrs. Fitzhugh, of Ravensworth, and of the mother of Hon. Charles G. Kerr, of Baltimore. Mr. Gold-borough had held numerous offices, both under the State and national governments, and for a long time, beginning in the fifties, was chairman of the democratic central committee of Dorchester county. He leaves a widow, but no children.

Simon S. Hartman, of Tunnelton, West Va., has been subject to attacks of colic about once a year, and would have to call a doctor and then suffer for about twelve hours as much as some do when they die. He was taken recently just the same as at other times, and concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "I took one dose of it and it gave me relief in five minutes. That is more than any thing else has ever done for me." For sale by L. Stabler & Co., druggists.

Use it in Time.
Catarrh starts in the nasal passages, affecting the eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected cures in the head invariably produce catarrh, causing an excessive flow of mucus, and if the mucus discharge becomes interrupted the disastrous results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a ringing and buzzing sound in the ears and sometimes a very offensive discharge. Ely's Cream Salve is the acknowledged cure for these troubles.

While no physician or pharmacist can conscientiously warrant a cure, the J. C. Ayer Co. guarantee the purity, strength, and medicinal virtues of Ayer's Sarsaparilla. It was the only blood-purifier admitted at the great World's Fair in Chicago, 1893.

For Over Fifty Years
An Old and Well-Tried Remedy.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with successful results. It cures the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind. Jan 17 06 d&w 17
